# About Ferring

---

We focus on people. We believe in the power of research and the value of partnership. We are passionate and curious about science.

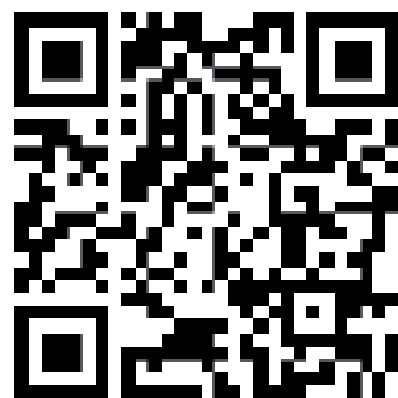

Ferring benefits from an innovative and successful track record in reproductive health and fertility. We've been developing hormonal treatments for over 70 years, and we have a major research commitment in this area.

We believe in working with the body's own systems, and focus on producing treatments that enable doctors to treat patients on the body's own terms.

A leading company in the area of fertility treatment, our portfolio allows doctors to better fulfil each patient's needs.

Select the option: I have been prescribed a Ferring product in the UK

#### Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at <https://yellow.card.mhra.gov.uk/>. By reporting side effects you can help provide more information on the safety of a medicine.
